

2 ACH Payment Processing

Overview

This chapter provides information about how Federal government ACH payments are processed. It also contains valuable information on payment dates and information to assist in identifying Treasury disbursed payments.

In this Chapter...

Identifying the Paying Agency/Payment Type for Non-Treasury Disbursed Payments	2-11
Identifying the Payee for Non-Treasury Disbursed Payments	2-12

A. Financial Organization Master File (FOMF)

The Financial Organization Master File (FOMF) is a Department of the Treasury master list of financial institutions receiving Federal government Automated Clearing House (ACH) payments. It contains Routing Numbers (RTN) and a single financial institution name and mailing address for each RTN.

The FOMF is derived from the Federal Reserve Bank's (FRB's) ACH Customer Directory (ACD) which contains the RTNs and related information of all valid ACH participants. The FOMF is updated on a monthly basis using information from the most current ACD file.

Purpose

The Financial Management Service (FMS) relies on the FOMF data to validate RTNs used to originate payments and to send financial institutions the following:

- reclamation notices
- trace inquiries
- Green Books
- marketing materials.

Financial Institution Responsibility

Changes to Financial Institution Name and Mailing Address

Financial institutions are responsible for keeping their name and mailing address for each RTN up-to-date with the FRB. Any changes to RTN data should be provided to the FRB as soon as possible so that the ACD and FOMF contain current data. If the financial institution fails to notify the FRB, it may be held liable for information (e.g., reclamation notices) mailed to obsolete addresses.

Changes to Routing Numbers

If a financial institution changes RTNs (e.g., due to merger), it must notify its servicing FRB's ACH Department as soon as possible to have the old RTN updated from the ACD. Updates to the ACD will update the FOMF. Additionally, financial institutions should send NOCs to each originating Federal agency from which it receives payments.

The following steps should be taken in updating RTNs:

- Delete an obsolete RTN only after all activity has been transferred to the surviving RTN.
- Confirm that no activity is being received on the obsolete RTN prior to deletion.
- Allow at least three months after the update to the ACD before deleting an obsolete RTN.

New Depository Institutions

Because the FOMF is updated on a monthly basis, a new depository institution may not be eligible to receive government ACH transactions for up to 30 days after being entered into the Reserve Banks' ACD.

B. Federal Government ACH Processing

General Flow

Federal government ACH payments are initiated by the authorizing Federal agency to a Government Disbursing Office. These include the FMS, Department of Defense Disbursing Offices, and the Bureau of the Public Debt (for *TreasuryDirect* payments). The Federal Reserve is the Federal government's ACH Operator.

Prenotification

The Federal government prenotification process is handled in accordance with NACHA Operating Rules. Social Security originates prenotifications for all new Direct Deposit enrollments.

Payment Formats

Federal government ACH payments are originated in the Prearranged Payment and Deposit (PPD) with or without addenda, Cash Concentration or Disbursement (CCD) with addenda, or Corporate Trade Exchange (CTX) formats. Refer to the NACHA Operating Rules for details on payment record formats.

Account Requirements

All Federal government benefit payments must be deposited into an account at the financial institution that is in the name of the recipient or beneficiary with the following exceptions:

- Where a representative payee has been selected.
- Where the payment is to be deposited into an investment account established through a securities broker or dealer registered with the Securities and Exchange Commission, or an investment account established through an investment company registered under the Investment Company Act of 1940 or its transfer agent. The payment may be deposited into an account designated by the broker or dealer, investment company, or transfer agent.
- Where Treasury has granted a waiver.

Payment Posting

Financial institutions may conduct a manual search of their unpostable ACH payments to determine if the payment can be posted. If the actual account number is different from what is contained in the ACH entry, but the financial institution can identify the correct receiver, the financial institution may post the payment to the correct account, as long as there is no change in the title of the account or in the interest of the recipient or beneficiary in the account. Please see Chapter 6, NOCs, for more information. The financial institution should originate an NOC with the correct account number.

If a payment cannot be credited to an account, the payment must be returned. Please see Chapter 4, Returns, for instructions on returning Federal payments.

Availability of Funds

In accordance with NACHA Operating Rules, consumer payments (i.e., Federal salary and travel payments, benefit payments) must be made available for withdrawal no later than the opening of business on the settlement date (provided the entries are made available to the RDFI by its ACH operator no later than 5:00 p.m. on the banking day prior to the settlement date). Corporate payments (i.e., vendor payments, nonbenefit payments) must be made available for withdrawal on the settlement date.

Electronic Transfer Account (ETASM)

The ETA is a low cost account designed by Treasury to provide individuals who receive Federal benefit, wage, salary, or retirement payments the ability to receive their payments electronically. Any individual who receives a Federal benefit, wage, salary, or retirement payment is eligible to open an ETA. Financial institutions that choose to offer ETAs (ETA Providers) will enter into a Financial Agency Agreement with the Treasury, outlining the duties of the financial institution.

C. Federal ACH Payment Schedule

FMS publishes the Federal ACH Payment Schedule annually in NACHA's "ACH Rules: A Complete Guide To Rules and Regulations Governing the ACH Network." This listing provides the actual pay date for recurring Federal payments. This listing is also available for viewing/download on the FMS website www.fms.treas.gov/ach/achpay.html.

D. Identifying Treasury Disbursed Payments

Treasury disbursed payments can be identified using information contained in the Company/Batch Header Record. The Regional Financial Center (RFC)/Routing Number Table on pages 2-7 to 2-8 lists the appropriate information for each FMS RFC. You can identify a payment by locating the following information:

RFC Symbol Number

Field 3, Company Name, of the Company/Batch Header Record

Routing Number

Field 12, Originating DFI Identification, of the Company/Batch Header Record

Sample Company/Batch Header Record (with identifying information highlighted)

```
101 111000038 1110360159812151924B094101DALLAS FRB  AUSTIN DISB CTR  FEDSA001
5220DOJ TREAS 220    3111036183CCDMISC PAY 121698981216  2111036180000001
```

RFC Symbol Number: 220 (Austin RFC)

Routing Number: 111036183 (Vendor/Miscellaneous Payments)

Note: A '2' in field 11 of the Company/Batch Header Record identifies the Originator as a Federal government entity or agency.

*These payments have been reassigned from the Chicago RFC. The routing numbers will change at a later date.

Consumer Payment Formats

Consumer payments are designated for deposit into an individual's account. They are identified by the Standard Entry Class Code (SEC) which is found in the Company/Batch Header Record (Field 6) of the payment file data.

Standard Entry Class Code

The Prearranged Payment and Deposit (PPD) is the SEC code used for identifying Federal agency consumer payments. The payment entries may be accompanied by a PPD addenda record (PPD+) which further identifies the reason for the payment.

Payment Types

Types of payments that fall into the PPD category include the following:

- benefit
- annuity
- travel
- salary
- allotment
- IRS tax refund
- Public Debt payments.
